Dated: 06/4/22

Office Order

(TO WHOM SO EVER IT MAY CONCERN)

This is to certify that a Senior Secondary (10+2) qualification is acquired in two years after matriculation whereas the Diploma in Engineering & Non-Engineering can be acquired in three years after matriculation i.e. 10+3.

Therefore, three-year Engineering and Non-Engineering Diploma qualification can be termed as higher qualification than 10+2 qualification. However, having different duration and courses of studies, no equivalency can be established between the two qualifications.

This issues with the prior approval of the competent authority.
